

**Hurray! Griddle Cakes for Breakfast!**

Maybe your youngster won't hustle down to breakfast when there are "Presto" griddle cakes on the bill of fare!

You can't blame him—of course not. The cakes you make with "Presto" are always lighter and better eating—now aren't they? And incidentally, don't you appreciate the convenience and saving in time when you use "Presto"?

Most housewives do.

## MT. LORETTO WAS "NICE PLACE" WHEN COLER VISITED IT

Former Comptroller Gives  
Opinion of Criticised In-  
stitution for Children.

Bird S. Coler, former Comptroller, testified to-day at the charities investigation which Special Commissioner Charles H. Strong is conducting and explained how he came to introduce the present system of paying the charitable institutions per capita for the care of public charges.

The old way of contributing lump sums to various institutions proved disastrous, Mr. Coler said, because the Legislature allowed some worthless places large sums, while giving good institutions next to nothing. Mr. Coler visited many places and came to the conclusion that it was better to place children with religious than with public institutions.

Mr. Coler inspected St. Joseph's Home at Peekskill and the Mission of the Immaculate Virgin at Mt. Loret-

to, S. I. The Mount Loretto institution was one of the most seriously criticised by the inspectors of the Charities Department. The witness thought it a very nice place.

"We didn't take the Catholic institutions, where the sisters get no pay, for there the cost of maintenance is reduced to almost nothing. We took the institutions where the employees received salaries and estimated what it cost to maintain their inmates, and we based our per capita payment on that basis."

John McCormack Has a Cold.

According to his manager, Charles L. Wagner of No. 1431 Broadway, John McCormack, the tenor, is recovering rapidly from a cold which prevented him from singing at the Academy of Music in Brooklyn last evening for the Alumnus of the Visitation Convent. Mr. McCormack took cold on a train coming from Baltimore last Sunday night. He felt well enough to sing last night but was told by his physician the strain would be dangerous. The concert has been postponed to Easter evening. Mr. McCormack starts on a western tour Wednesday.

## SOFT COAL MINERS WIN 5 PER CENT. INCREASE IN WAGES

New Scale Will Advance Cost  
of Coal 6 to 13 Per Cent.,  
Operators Say.

Both miners and operators admitted to-day that the soft coal conference will end within the next forty-eight

hours with the acceptance of a new wage scale involving about a 5 per cent. increase. The miners originally demanded a 20 per cent. increase in wages and a general "mine run" system throughout the bituminous fields. The new wage scale will add approximately \$10,000,000 to the pay rolls of the operators for the benefit of over 30,000 miners.

To-day the union yielded to the demands of the Indiana operators to cut down a cent in the figures for that district, and this, with the splitting in half of the original demands last Saturday, caused the operators to reach an agreement among themselves, with the result that the new wage scale will be based on the figures forecasted in the Evening World last week, as follows: "The

miners in Ohio will get 50 cents for every ton of coal dug by them on the Ohio run point, Indiana 53 cents; Illinois, 54, and Western Pennsylvania, 55. The biggest increase is in the West Virginia fields, which will be a 5 per cent. increase in day labor and an equal increase for "dead horses" figures from \$2.75 to about \$2.93 a day.

According to the operators, the total increase in the cost of production of soft coal under the new scale will be from 6 to 13-16 per cent.

One of the Cushman Falls. C. L. Cushman, an old established bakery and restaurant company at No. 413 Fourth Avenue, assigned to-day for the benefit of creditors to Edward E. Hoenig of No. 35 Nassau Street. There are several Cushman's in the bakery business.

## Lime Medication in Tuberculosis

In the N. Y. Medical Record of December 5, 1911, Dr. John North of Canada says: "I have come to the conclusion that one of the most prominent causes of tuberculosis is lime starvation. In all cases of incipient tuberculosis there is a deficiency of calcium. Many do not eat food containing enough lime. In such cases we must resort to lime medication."

Where lime is combined with proper diet, fresh air and hygienic living conditions we believe it will prove beneficial in any case of tuberculosis. It contains no opiates, narcotics or habit-forming drugs, as is safe to try. From Hiker-Hegeman Co. your druggist or direct—Ador.
